

SMA and 1 mm pin adaptor for 0.5 mm Ø Ag electrodes – for ePatch amplifier

Art. 001154

The SMA and 1 mm pin adaptors are designed to make the ePatch amplifier suitable for BLM experiments. Such adaptors allow to mount two Ag electrodes on ePatch that can fit either with our BLM cuvette or with any other custom-made chamber. Please, use the assembly scheme shown below to properly connect the adaptors to ePatch.
